# The **Qiskit Global Summer School** on **qBraid**

Use qBraid to automate your setup for the Qiskit Global Summer School.
*No downloads or installs needed; just a few clicks!*

Create an account

Sign up for a free qBraid account using Google, or create an account with your email. Once logged in, you will see the account.qbraid.com page where you can launch your cloud-based IDE.

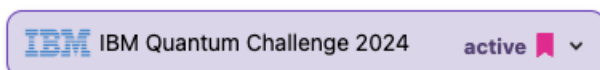

Open lab.qbraid.com

Use the "Launch Lab" button on the top of the account.qbraid.com page. If this is your first time logging in, you will see the "Launch" page. Click on the "Start" button on the *Free* tier to access qBraid Lab.
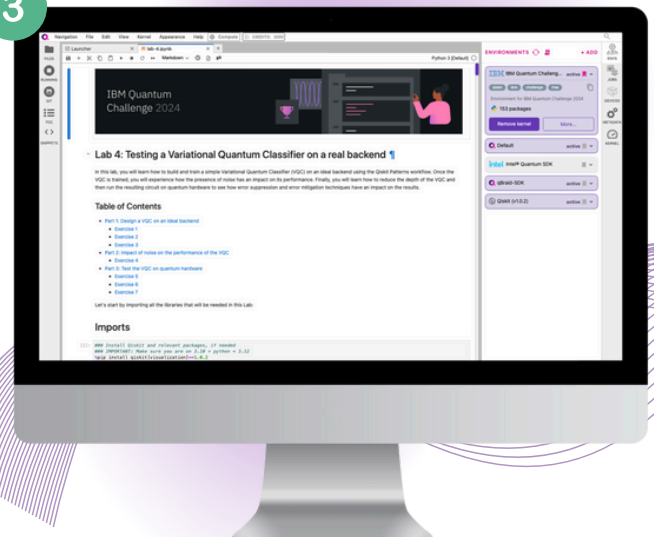

Launch the QGSS Environment

Click on the Environments Manager in the top right corner and search for "QGSS". Click the "Install" button, and then "Activate". Congratulations! You are now ready to start running the course material.

Email contact@qbraid.com with any issues. Happy coding!
